

# THE GHOST HUNTER

## Résumé

### Series 2

#### Episode 7 – inför episode 8

When Roddy and Tessa return to school after the summer holidays, they discover to their horror that De Sniff works at their school in the chemical laboratory. And, what is worse: apparently, the ghost hunter survived the fall off the moat at Chillwood castle. However, she is bound to a wheelchair. To his dismay, De Sniff has to look after her.

While Roddy and Tessa go to Chillwood Castle to warn William, De Sniff is preparing a secret liquid in the school laboratory. It turns out that it is Ghost immobilising vapour – and the ghost hunter is not at all in need of a wheelchair...

#### Episode 8 – inför episode 9

While De Sniff has been making some more GIV, Mrs. Croker has secretly been working on a project of her own – the spektrika. It is a large glass bowl designed to hold captured ghosts. Using the ghost guzzler, the ghost hunter now has an even more powerful tool with which she can trap ghosts.

The ghost guzzler accidentally catches William, who has been spying on De Sniff and the ghost hunter. When they cannot find William, Roddy and Tessa get suspicious and go to De Sniff's house. Just as Roddy manages to get William out of the spektrika, De Sniff and Mrs. Croker returns!

#### Episode 9 – inför episode 10

At the very last minute, Roddy, Tessa and William manage to get away from the two ghost hunters. However, now they are facing another challenge: to save all Chillwood castle ghosts. Unfortunately, they are too late: Mrs. Croker and De Sniff have already captured the ghosts. It is all part of the ultimate plan. Mrs. Croker wants to become immortal! But she needs more ghosts...

De Sniff sets a trap in order to capture Roddy and Tessa so that William can be captured without any further disturbances. They have been locked up in the barn together with a furious bull!

#### Episode 10 – inför episode 11

With help of the shoebrushes, William saves Roddy and Tessa from the bull and De Sniff. When Mrs. Croker hears about the magic shoebrushes, she sets off to steal one from Roddy. By getting the job as a part-time cleaner with Old Nosey, Mrs. Croker gets her hands on the brush in Roddy's bag. Now she, too, can be invisible!

There is a large number of young ghosts at Chillwood Castle – perfect for Mrs. Croker, who needs all the ghosts she can find in order to become immortal.

These young ghosts are friends of William, who does everything he can to keep them from the claws of Mrs. Croker.

### **Episode 11 – inför episode 12**

The situation seems hopeless, now that Mrs. Croker has got the brush. By running for election to the parish council, De Sniff is able to get into people's houses. Using the ghost sensor, he can tell whether any ghosts are hiding inside. Every little child ghost is captured and put into the spektrika. In the meantime, De Sniff agrees to let the carnival be held at the grounds of Deadlock Hall.

All it takes for Mrs. Croker to become immortal is one more ghost in the ghost machine – the shoe shine boy! It seems there is no way out for William.
