10-minutes discussion

Schools had to be shut in India because of air pollution. What is **air pollution**? What makes the air dirty and poisonous? How can **air pollution** affect humans, plants and animals? What could be done to protect our environment from air pollution? How does air pollution affect the Earth's atmosphere?

The Big Debate

The People's Fridge is a fridge where restaurants and supermarkets can put in food that would otherwise have been thrown away. Is this a good way to reduce food waste? Do you think food waste is a global problem? Can you think of other food waste solutions? How can we reduce food waste at home? Would you like to have a "People's Fridge in your neighborhood?"

Answers
