10 minutes discussion

Drivers who drive too fast can go to a Kids' Court, where they face questions from children. Do you think it would work to have a Kids' Court in Sweden as well? Do you think drivers would drive more carefully if they actually meet children and talk about speed limits and accidents? Do you think the numbers of children involved in accidents would be reduced with this kind of punishment? Why? Why not?

The Big Debate

We share a lot of information on social media. We share activities, dialogues, pictures and even results. Do you think it is correct to share exam results on Facebook or Twitter? How would you feel to find your exam results on Facebook? Have you ever shared any results on Facebook?
