### Diskussionsfrågor

Many people like dolphins, they go swimming with them, wear jewellery with shapes of dolphins and even get tattoos of dolphins. Why do you think it is that dolphins are so popular? Is it the same with other water-living creatures? Which animals do you think are the most popular ones, and why?

Kristen Stewart and Robert Pattinson talk about Edward's more traditional values when it comes to relationships. What are traditional values to you? Are they the same today or have they changed, do you think? If they are different, which do you prefer and why? Explain your thoughts!

In creating the world of Hogwarts, J.K. Rowling added the Harry Potter world into that of our own. People now travel to London to see platform 9 3/4 and the entrance to Diagon Alley. Can you think of other modern phenomena from movies, books and literature that have left imprints in our world? Can you think of such places in Sweden? Why do you think it is that people are so interested in places where something happened in a book or a movie?
