KORTFILMSKLUBBEN ENGELSKA

The fake

Before watching

Discuss in pairs:

1. Have you or anyone you know used a fake ID? What happened?
2. When is it OK or not to lie to a parent or guardian? Motivate your answer.
3. Could it sometimes be OK for parents or guardians to lie to their children, or never? Motivate your answers.
4. Read through the vocabulary list and the whole work sheet aloud.

During the film:

Try to make a word list of words and phrases that are unknown to you.

After watching:

First write a couple of key words to 1-12 silently, and then talk in pairs:

1. When reading the name of the film, whom in the movie do you think of?
2. What happened when Norm tried to pay for the movie the first time, going with his wife?
3. Why did the young man get suspicious?
4. Why did Norm not enjoy the movie?
5. How much money did Norm actually earn at the film when using his fake ID?
6. How much is that, more or less, in Swedish crowns?
7. How much did a fake ID cost?
8. How much is that in Swedish crowns?
9. How did the young man know the truth?
10. In the end, do you think it was worth the money?
11. What could be the reason why the fake ID stated: "Alaska"?
12. Norm's last words are: "Don't tell my wife". Do you think he could have or should have said anything else, in order to get in to the cinema? If so, what? What would you have answered?

To continue:

Look up and learn about the difference in when you are supposed to use "who" and "whom"? What is the difference between them?

Are there any situations in which you think it should not be necessary with an age limit? Make a short speech to address the head of that issue, and present your speech in front of some classmates.
