

## KORTFILMSKLUBBEN ENGELSKA

### Coach

#### Before watching

To warm up, discuss in groups of four or five:

1. What sports are represented in your group?
2. If you had to describe these sports in order for an alien to really understand them, what would you say?
3. When talking about fan club behavior connected to your sports, are there any similarities or differences that come to mind?
4. What sports strike you as “typically British”? or “typically Swedish”? Motivate your answer.
5. Do you think that the words “patriotic” and “national sport” are possible to relate in any way? How?

#### During the film

- Take notes in English of any swear words you notice.

#### After watching

1. Find the Swedish equivalents to the swear words your group noticed in English. If there are other languages spoken in your group, try to translate the words to all of your different languages. Which word was most difficult to translate? Why?
2. The word “Patriotic” is explained as: “it means beating the shit out of loads of foreigners”. Individually, write your own definitions and examples of the following words. Then, explain them to each other and notice where your explanations are similar and/or different.
  - Nationalism
  - Patriotic
  - Culture
  - Swear word
3. Etymology is the history of where words and expressions come from. Study the history of a specific word or expression from the film, using first <http://www.worldwidewords.org/> and then <http://www.etymonline.com/>

4. During two minutes, try to list as many similarities and differences that you can think of between the father and the son.
5. Pick a moment at the beginning – middle –end of the film and describe the father's feelings. Do the same with the son's.
6. Do you have any advice for the father? For the son?
7. What do you think happens the moment after the film ends? Why do you think so?

### **Project**

In pairs or threes, pick a national sport for any of the Commonwealth countries and hold a short presentation about it. If you'd like, include some Youtube clips, history of the sport, types of fan clubs etc.
