

KORTFILMSKLUBBEN ENGELSKA

Pocket money

Before watching

With a friend, read the vocabulary list forwards and backwards. Also, read through the discussion points below. Before watching this film, it is good to switch on the subtitles in English and to know that Long Bay Jail is a prison in Sydney.

After watching, discuss (in pairs or groups of three)

1. In the beginning of the film, where have the boys just been, and where are they going? What makes you think so?
2. Why do you think the bag is so important? What does it contain? Why did the young man put it there?
3. Why is Charlie so scared when the mom brings out the food pack from his bag?
4. Why do you think Charlie does not tell his parents?
5. Why do you think the film is called "Pocket money"?
6. If you were Charlie or his friend, what would you have done? Why?
7. If you had to construct a new prison, what factors would you have to think of? What would your prison be like, once it was built? List 5-10 factors and compare your list with those of another group.
8. The opening lines of the film are: "How was school today?" "Don't even ask about the school". This is not a typically "correct" use of the article "the". Look up the grammar rules of *countable/uncountable nouns* in a grammar book or online. Then, make a small test for your classmates on this topic.
9. What benefits for society at large could there be with keeping really "nice" jails? After you discuss this, have a look at some of the jails listed here: <http://www.therichest.com/rich-list/12-of-the-cushiest-prisons-in-the-world/>

Possible project

Learn more about *Long Bay Jail*, containing notorious criminals for 107 years and described as "Australia's hardest prison".
