My name is Sukanya Basu , my age is 16. And I live in Howrah.

I like all type of music, like Enrique Iglesias Addicted.

Because the songs are very good tune and very good writings and lyrics and that's why I like that song. And it's a different type of tune, it feels good when I listen to the song.

I like music, I feel good when I listen to music. I want to listen to music all the time but my parents aren't allowing me because I have a lot of studies. I like to listen to music at night when I am going to sleep and when I'm going to a long drive with my parents, then I would like to listen to music because music it is a thrilling experience.
