Hello my friends. My name is Kago Moreti. I am 11 years old. I come from a country in Africa.

*Music "Kolota" by Bushmen of the Kalahari*

I am doing grade five in Phaphane Primary School, which is in Mochudi Village.

*Kago counting one, two, three, four, five...*

Mochudi Village is only 50 kilometers away from the capital city, which is Gaborone.

*Music "Thabo" by The Kgwanyape Band*

A lot of people from other countries like to visit our country to come and see wildlife and take photos of animals, like lions, giraffes, baboons, elephants and also snakes!

*Music "Escape" from the soundtrack to "Snakes on a Plane"*

Last time I saw a snake under a tree, my cousin told me the snake is very dangerous. Suddenly my grandfather came and killed it. Because if you are bitten by that snake you can die! I don't want to die. I was happy when my grandfather killed it because it will not bite anybody!

When I grow up, I want to be a soldier just like my uncle. I like my uncle and last time he told me that to be a soldier is very nice. I think my uncle was very right. I like their uniform and how they march at the stadium.
